

Vimeo Livestream settings for GUTS Tickets

To make the video embeddable on the website of GUTS, but not allow sharing directly:

1. Set Privacy > Hide this event from Vimeo.com
2. Set Privacy > Where can this event be embedded?
 - a. Set to *Specific domains*
 - b. Enter *guts.events* and *app.demo.get-protocol.io*

The screenshot shows the Vimeo Livestream settings interface. On the left is a navigation menu with options: General (expanded), Info, Privacy (selected), Collections, Collaboration, Embed, Interaction tools, Distribution, Analytics, and Similar stock. At the bottom of the menu, a storage indicator shows 'Total limit 46.7GB of 7TB'. The main content area is titled 'Privacy' and includes the instruction 'Choose who can (or can't) see your video.' Below this are three settings: 'Who can watch?' set to 'Hide this video from vimeo.com', 'Where can this be embedded?' set to 'Specific domains' with a text input field containing 'domain.com' and two domain tags 'guts.events' and 'app.demo.get-protocol.io', and 'Who can comment?' set to 'Anyone'. A toggle for 'People can download this video' is turned off. At the bottom are 'Cancel' and 'Save' buttons.

Privacy

Choose who can (or can't) see your video.

Who can watch?

Hide this video from vimeo.com

Where can this be embedded?

Specific domains

domain.com

guts.events x app.demo.get-protocol.io x

Who can comment?

Anyone

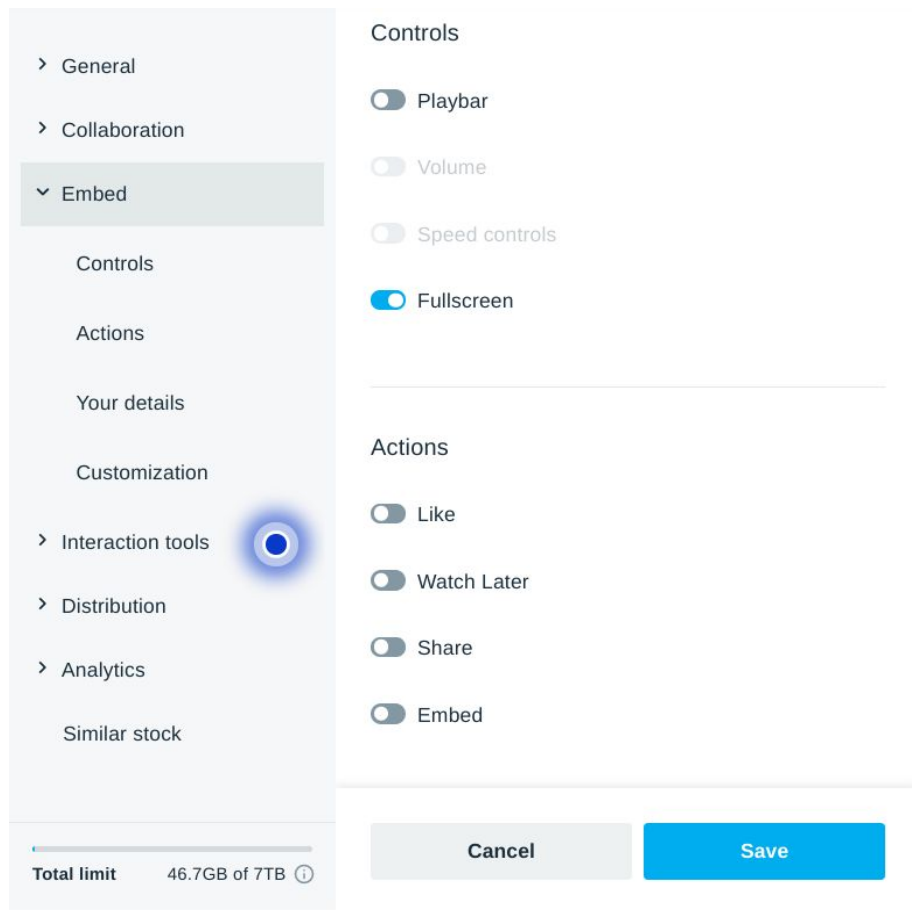

People can download this video

This applies to the review, video, and download pages.

Cancel Save

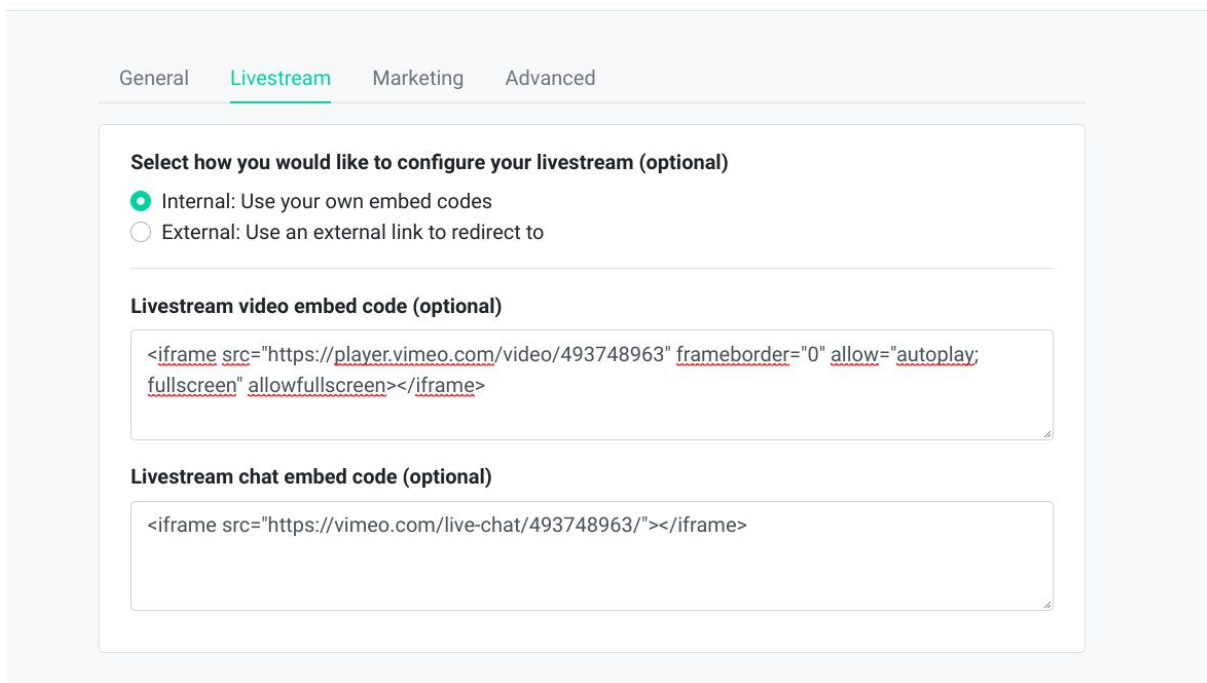

Total limit 46.7GB of 7TB

3. Set Embed > disable all controls except Full screen

4. Paste embed-code in your GUTS dashboard event under general > livestream

Reports Shops Pools Attendees Scanning Manage

5. Ask GUTS to look through it. When in doubt, share the credentials of your Vimeo account.

See [Vimeo](#) for more information.

To make the chat embeddable on the website of GUTS:

1. Enable chat on your livestream event
2. Paste embed-code in your GUTS dashboard event under general > livestream

See [Vimeo](#) for more information.
